

Fig. 77—Use of the breeding methods clearly illustrated in this chart, on the basis of line breeding, will start poultrymen on the right road to real success, either in breeding for high egg yield, for exhibition values or a combination of both. It is not at all a difficult or complicated matter, when the student-reader once applies his mind to the absorbingly interesting problem, becomes enthusiastic over the great possibilities and sees just ahead the almost certain financial reward. Full explanation will be found in Chapter XIII herewith.
